

# Marius Herlea – Frontend Developer (React / Next.js)

## Profile

Frontend Developer specializing in React, Next.js, and TypeScript, focused on building fast, accessible, and scalable user interfaces. I enjoy crafting clean component architectures, optimizing performance, and delivering polished user experiences across devices.

## Technical Skills

- 1 Frontend: React, Next.js 15, TypeScript, JavaScript (ES6+)
- 2 Styling: Tailwind CSS, responsive design, modern CSS
- 3 UI: Component architecture, reusable components, UX focus
- 4 Performance: SSR/CSR, optimization, Core Web Vitals awareness
- 5 Data: REST APIs, dynamic rendering, state management
- 6 Tools: Git, GitHub, npm

## Projects

### Store Pulse – Analytics Dashboard

- 1 Built a modern dashboard using Next.js and TypeScript
- 2 Designed UI for data visualization and user insights
- 3 Focused on clean layout, usability, and performance
- 4 Implemented reusable components and structured UI architecture

### eCommerce Application

- 1 Built responsive UI with dynamic product pages
- 2 Implemented shopping cart and smooth user flows
- 3 Integrated APIs and handled dynamic data rendering
- 4 Focused on UX, performance, and maintainability

### Blog Platform

- 1 Built UI for blog with comments and pagination
- 2 Implemented SEO-friendly pages and dynamic routing
- 3 Focused on readability, performance, and responsiveness

## Strengths

- 1 Strong attention to UI/UX and detail
- 2 Clean, scalable component design
- 3 Performance-focused mindset
- 4 Problem-solving and continuous learning
